The amendment filed June 15, 2001 in Paper No. 13, is considered to be non-responsive (MPEP 821.03). It is noted that applicant elected for examination Group II (claims 5-19) which was previously elected in Paper No: 8. However, the Restriction Requirement mailed June 28, 200 was vacated in lieu of the Office Action submitted in Paper No: 9 which required an election of species generic to the claimed invention. Applicant's response did not elect species for examination on the merits and therefore is deemed non-responsive. It is noted that applicant elected compounds for examination, however, an election of V, W, R and Y designations is needed. For example claim 5 has amino acid residues (i) to (xxxii); and claims 5-9 and 11-14 have different designations for V, W, R and Y. Since the above mentioned amendment appears to be a bona fide attempt to reply, applicant is given a **TIME PERIOD OF ONE (1) MONTH or Thirty (30) DAYS**, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(A) ARE AVAILABLE.**
